Committee for ITU Policy

Structure for PP22

European Common Proposal (ECP)

Definition of an European Common Proposal (ECP)

An ECP is a multi-country proposal to which the Working Procedures for CEPT Coordination apply.

...

As a general guideline an ECP would not be approved by the responsible Com-ITU entity unless there were at least 10 CEPT members indicating their intention to co-sign it, and not more than 6 opposing the proposal going forward as an ECP.

...

Any CEPT Member which is obliged to voice objections or submit alternative proposals to an ECP should inform the responsible Com-ITU entity of its intentions and should, nevertheless, cooperate with the other CEPT Members during ITU meetings to develop a common consensus.

...

- ‘Framing’ ECP that will set our CEPT overall vision for ITU
- We anticipate the themes will be reflected in subsequent ECPs for specific resolutions
- Focuses on:
 - ITU’s leading role in shaping telecoms/ICTs to improve the lives of people and communities and achieve sustainable development
 - Building on the core expertise of the ITU, drawing on and increasing the expert input of its membership
 - Improving cooperation and collaboration between the ITU and other organizations
 - Leveraging the Union’s openness and transparency to stakeholders, and promoting good governance

PT Policy (work in progress)

Working on draft ECPs for:

- NEW res on **Article 48** invocation (in discussion with PTB team in CEPT)
- **Gender** (resolution 70 - MOD)
